**8-MAP Testing**- The winter administration of MAP Testing (or Measures of Academic Progress) will take place in January. All students in grades 1-5 will participate in MAP Testing throughout the month of January. MAP allows us to assess where a student is, and how they've grown in their achievement. MAP gives teachers timely feedback on student progress throughout the school year that they can use to adjust instruction effectively. Centennial Lane will use MAP as one of several measures to help us assess student learning. Along with other data sources, MAP helps us to determine instructional strengths and needs for our school and for individual students.
